

VIRGIN FIELDS CORPORATION: Working For you

CORPORATE PROFILE:

Virgin Fields LLC was formed to meet the challenges of the Oil and Gas industry by ensuring products and services are delivered efficiently to meet our Customer's needs.

Virgin Fields Company is committed to being a premier vault of knowledge in the oil and gas business and top-tier performance by creating services through sustainable, efficient growth in delivering quality Petroleum and Petrochemical Products, LPG Gas and the right services and durable spare parts, equipment supply for the oil drilling and refinery industry, thereby contributing to the world's energy security. Along with Petro Chemical Products, Virgin Fields also specializes in the trading Crude Oil to our valuable clientele.

Our goal is to assist the African Oil & Gas Industry by providing access to quality petroleum and petrochemical products from the international market via strategic Alliances/Partnerships and Joint Ventures. Virgin Fields LLC with its Global Partners will help to businesses and countries to meet their aspirations towards growth, profitability, development and be a player on the international stage.

Virgin Fields also assists our associate mining firm based in Indonesia for the supply of Coal across the globe. We handle our clients through the entire process including introduction to the mining company, coal mine visit and introductory/ reviewing meeting at the headquarters in Jakarta till the time the allocation reached our customer. We are quite keen to ensure that our customers are completely satisfied with the service provided and our mining associates till date boast a Zero Percent Delivery failure record since its inception in 1998.

Virgin Fields together with our Financial Partners are into the business of financing credible and profitable infrastructure projects across the globe.

OIL & GAS TRADE

Tank Farm - Caribbean

Virgin Fields together with its partners are engaged in the business of managing a Petroleum Tank Farm called Port Kaiser which is a centrally located tank storage facility on the South Coast of Jamaica, with infrastructure to efficiently service Jamaica and the regions with a supply of refined finished fuel products from its tanks and pier. It is a duty-free zone, which makes it a strategic holding facility. This has presented us with the opportunity to service the nearby islands in the Caribbean that are in desperate need of fuel including Haiti (614,306 Metric Tons fuel/year), Republica Dominicana (DR, 6,091,865 Metric Tons fuel/year), and Belize (358,345 Metric tons fuel/year). DR is the largest USER of fuel in the Caribbean, followed by Curacao, then Jamaica.

The tanks have a capacity of 562,000 barrels (84,151 Metric Tons). The tanks are serviced exclusively by a 575' pier capable of servicing up to a 360' tankers. The draft is 35 feet.

Tank Farm - Ghana

Virgin Fields LPG Tank Farm gas operations are the state of the art solutions in delivering gas to end users via our distribution depots/stations. Our Gas tank farm project and automated loading gantry is to be used as a source to eliminate shortage of gas and to ensure steady supply to end users.

Here at Virgin Fields our expertise in the gas procurement, storage and delivery ensures efficient management of Gas deliveries under gas contracts with utilization of Gas Management System. We guarantee efficient Gas nomination, scheduling and Allocation for onward distribution.

Expanding this project further is to have in place storage facility for PMX/Gasoline of 30,000 metric tonnes capacity and AGO-Diesel of 60,000 Metric tonnes capacity.

Oil & Gas Trade

Virgin Fields LLC is the best solution for any buyer seeking a long-term relationship, and a consistent, reliable supply of products.

Virgin Fields LLC together with its Partners holds title to all products it offers, and is the only American-Owned Domestic Russian Distribution Company with Export Rights. This unique status provides them direct access to Russian Oil Products from a wide range of government and non-government run refineries.

Virgin Fields LLC access to products across Russia and USA enables us to provide extremely reliable and secure product delivery. Moreover, our Proprietary Risk Management Strategy assures on-time delivery of a Buyer's product, and complete protection of the Buyer's Capital.
